

Automated solutions

High-Performance Pick Station

Ergonomic, effective and productive preparation
of multiple orders at once

Agility and efficiency

Our high-performance pick station enables operators to prepare up to six orders at once without the need to travel.

GOODS-TO-PERSON METHOD:
the totes containing the products are brought to operators automatically, avoiding trips around the facility.

MAXIMUM ACCURACY:
the Easy WMS warehouse management system guides operators in preparing six orders at a time.

ELIMINATION OF ERRORS:
thanks to the pick/put-to-light instructions, operators fill orders without the risk of making mistakes.

ERGONOMIC DESIGN:
operators can adjust the platform to a comfortable height.

PROTECTION AND SAFETY: safeguards have been built in for both operators and goods.

Features

Throughput: **up to 1,000 picks/hour**

Orders filled: **6 orders simultaneously**

Maximum weight: **50 kg per order**

Speed: **40 m/min**
